

Case Studies

Case studies are free, short online quizzes. There will be at least four case studies available throughout the year, each worth 6 credits. We always ensure there are enough case studies offered that you may meet your 20-credit requirement. (Note that case studies run on a calendar year and will always expire on January 1st.) Some are only worth CCS credit, some are only worth CES credit, and some are worth both. You will only be allowed to take the case studies associated with your certification. The passing score to receive credit is **75 percent** of possible correct responses.

The case studies are housed on [LogisticsEI](#). Find a list of current case studies [here](#).

DUE DATES

All case studies must be completed by your certification expiration date.

For instance, if your certification expires on 1/1/2017, you must complete your case studies by 12/31/2016.

Certifications (2)

Save as PDF

Title	Date Obtained	Expiration Date	Status	Progress	Action
Certified Customs Specialist	1/1/2016	1/1/2017	Certified (Alternate)	100%	View Certificate
Certified Customs Specialist	1/1/2015	⚠️ 1/1/2016	Expired		

Note that completion of case studies is optional. The NEI offers case studies as an easy, free way of earning your 20 credits, but all CCS/CES designees may choose to earn their credits other ways (attending live events, webinars, etc.). For example, if you attend a conference worth 14 credits, you may choose to complete one case study to reach your 20 credit requirement.

If you have any questions regarding the case studies, please contact ei@ncbfaa.org.
