		MODE OF TRANSPORTATION ANY

### RESTRICTIONS AND PRECAUTIONS FOR TRANSPORTING AND HANDLING MATERIALS AND ALL DERIVATIVES

THIS PERMIT IS ISSUED UNDER AUTHORITY CONTAINED IN 9 CFR CHAPTER 1, PARTS 94.95 AND 122. THE AUTHORIZED MATERIALS OR THEIR DERIVATIVES SHALL BE USED ONLY IN ACCORDANCE WITH THE RESTRICTIONS AND PRECAUTIONS SPECIFIED BELOW. ALTERATIONS OF RESTRICTIONS CAN BE MADE ONLY WHEN AUTHORIZED BY USDA, APHIS, VS.

- o Adequate safety precautions shall be maintained during shipment and handling to prevent dissemination of disease.
- o With the use of this permit I, First Last, Permittee, acknowledge that the regulated material(s) will be imported/transported within the United States in accordance with the terms and conditions as are specified in the permit. The Permittee is the legal importer/recipient [as applicable] of regulated article(s) and is responsible for complying with the permit conditions. The Permittee must be at least 18 years of age and have and maintain an address in the United States that is specified on the permit; or if another legal entity, maintain an address or business office in the United States with a designated individual for service of process; and serve as the contact for the purpose of communications associated with the import, transit, or transport of the regulated article(s). \*\*Note: Import/Permit requirements are subject to change at any time during the duration of this permit.
- o \*\*\*Each shipment must be accompanied by an ORIGINAL certificate endorsed by a full-time, salaried veterinarian of the agency responsible for animal health of the GOVERNMENT OF XXXXXXXXXXXX certifying that the exported material:
- o [This certification must CLEARLY correspond to the shipment by means of an invoice number or shipping marks or lot number or other identification method. An English translation must be provided.]

continued on subsequent page(s) . . . . .

## United States Department of Agriculture

UNITED STATES VETERINARY BIOLOGICAL PRODUCT PERMIT  
RESEARCH AND EVALUATION

Permit #  
NO. **VB-161105**  
Issued at Washington, D.C. on **6/21/2016**  
Expires: **6/21/2017**

Dates valid

This permit is issued pursuant to the terms of the Act of Congress Approved March 4, 1913 (37 Stat. 832), governing the preparation, sale, barter, exchange, shipment, and importation of veterinary biological products. So far as the jurisdiction of the U.S. Department of Agriculture is concerned,

IMA Importer  
University Research Facility  
4700 River Road  
Riverdale, MD 20737

Importer/consignee

is authorized to import

**Bovine Coronavirus Test Kits**

This is an unlicensed experimental test kit imported for research only in our facility. It will not be sold or further distributed in the U.S.

prepared by

Biologics Manufacturing Inc  
Brussels, Belgium

Producer/exporter

into the United States through the port of **Any U.S. Port**

Importation shall be made subject to the following special conditions:

This importation is authorized in accordance with Title 9, Code of Federal Regulations, Part 104 for evaluation at the research/containment facility or diagnostic laboratory specified in the application filed with the Animal and Plant Health Inspection Service. All unused portions of imported materials must be autoclaved or incinerated before disposal.

Imported materials have not been approved by the USDA for sale and distribution. Therefore any claims regarding the prevention, diagnosis, management or cure of animal diseases have not been proven.

A COPY OF THIS PERMIT MUST BE INCLUDED WITH THE SHIPMENT FOR PORT INSPECTION.

This permit may be revoked if the permittee violates or fails to comply with said Act, the regulations made thereunder, or the conditions specified herein.

## Example 3: Veterinary Biologics

- All veterinary biologics require an APHIS permit: APHIS Form 2006
  - PG14 Type Code A06, DIS document Code APH03
- 10 digit HTS Code: **3002.30.0000 (veterinary vaccines)**
  - Other codes may apply if not a veterinary vaccine
- PG02 APHIS Veterinary Biologics Product Code (AVB)
  - for sales and distribution veterinary biologics
- Category Type Code: **AP0300 Animal Products**
- Category Code: **307 – Veterinary Biologics**
- Producer/Manufacturer Name and Address
- Destination/Quarantine Address

*Veterinary biologics are vaccines, bacterins, diagnostics, etc. which are used to prevent, treat, or diagnose animal diseases. These products generally work through some immunological method or process.*

## Example 4: Commodities for Human Consumption

- 10 digit HTS Code:  
**XXXX.XX.XX.XX**
- Category Type Code: **AP0300**  
**Animal Products**
- Category Code:
  - Meat/poultry = 301
  - Milk/milk products = 302
  - Egg/Egg products = 303
  - Food containing egg/egg products and/or milk/milk products = 304
  - Nutraceuticals/Supplement= 306A
- Permit number, if required
- Meat/sanitary certificate number
- manufacturer's statement (DIS)
- Country of Export
- Country of Origin
- Country of Processing
- Commodity Type (i.e. ham, sausage, etc) and animal species

**USDA FSIS may also regulate these products.**

## Example 5: Pet Food/Animal Feed Ingredients

- 10 digit HTS Code: **23XX.XX.XX.XX**
- Category Type Code: **AP0300 Animal Products**
- Category Code: **305 – Animal Consumption Products**
- Permit Number
- Manufacturer's Statement (DIS)/Health Certificate Number, if required by permit
- Country of Export and/or Origin
- All species from which animal origin materials contained within the product are derived from

## Example 6: Inedible Gelatin

- 10 digit HTS Code: **3503.00.XX.XX** or **9602.00.10.XX**
- Category Type Code: **AP0300 Animal Products**
- Category Code: **314 – Gelatin**
- Species (Ovine, Bovine, Caprine, etc.)
- Most gelatin requires only a health certificate (no permit)
  - Health Certificate number
  - Manufacturer's statement (DIS), if required
  - Permit number, if required
- Country of origin

## Example 7: Fertilizer

- 10 digit HTS Code: **3101/3102/3105.XX.XX.XX**
- Category Type Code: **AP0300 Animal Products**
- Category Code: **318 – Manure, Fertilizers, and Soil Amendments/Enhancers**
- Permit number
- Health Certificate number
- Country of Export
- Country of Origin

**Fertilizer containing plant material and/or chemicals may also be regulated by other federal agencies.**

## Example 8: Cell Cultures and Their Products

- 10 digit HTS Code:  
**XXXX.XX.XX.XX**
- Category Type Code: **AP0300**  
**Animal Products**
- Category Code: **309A – Animal By-Products for Technical use**
- Species (Ovine, Bovine, Caprine, etc.)
- Manufacturer’s Statement (DIS) – as required
- Health Certificate- if required
- Permit Number- permit required
- Country of Export and Origin
- Importer Name and Address
- Exporter Name and Address
- Destination Address

▼ [Guideline 1120: Cell Cultures/Lines, Recombinant Cell Cultures/Lines, and Their Products \(for in vitro use\)](#)

**Including:**

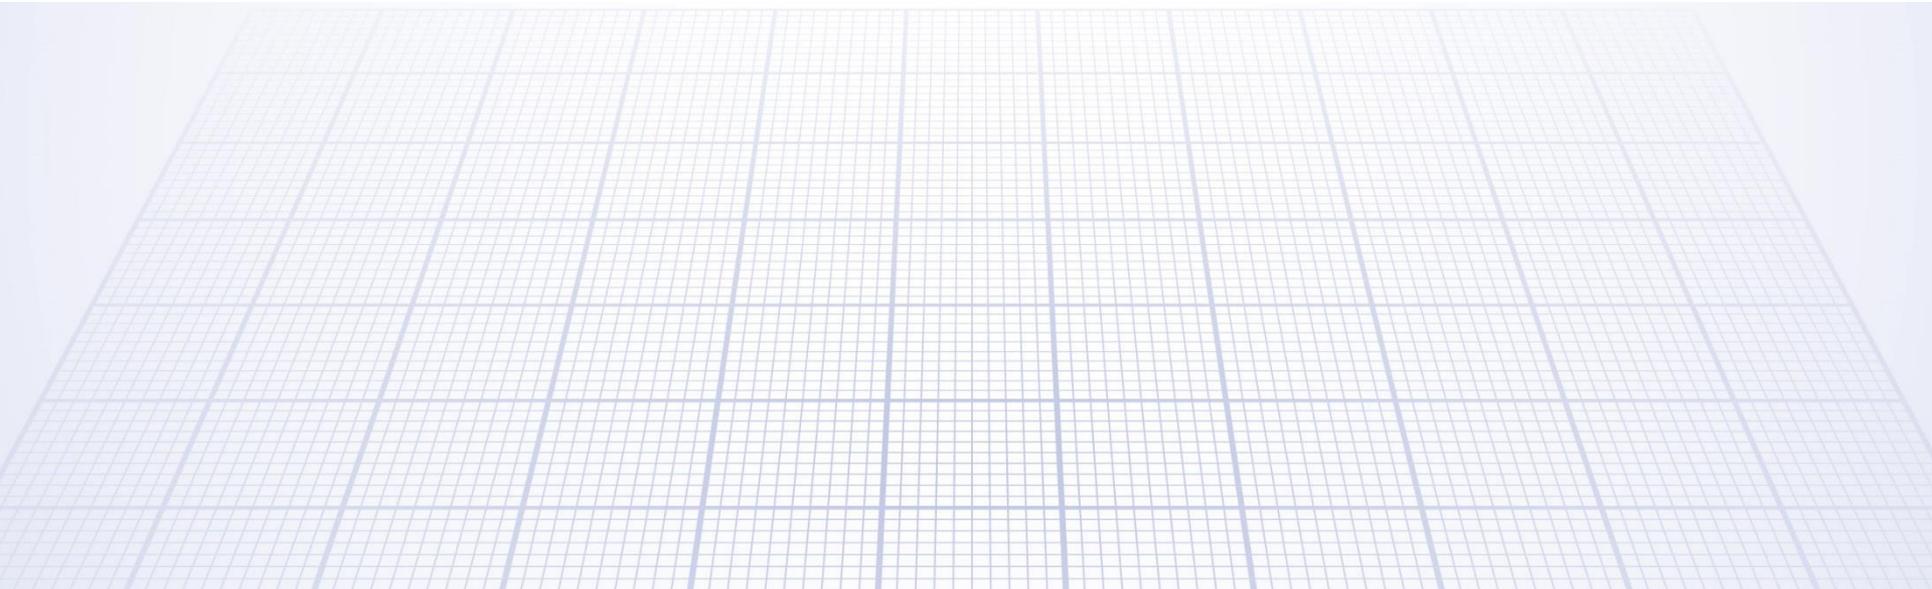

Monoclonal antibodies, cell culture supernatants, ascitic fluid, cell extracts, hybridomas, cell cultures/lines which are not derived from livestock\*.

**Not including:**

Cell lines of livestock\* and their products, microbial cultures and their products.

# Guidance and Disclaims

## Guidance: No LPCO, but APHIS Flag AQ2

- APHIS HTS flagging is based on the tariff code description, including explanatory notes
- Country or commodity-specific restrictions may not require an LPCO
- Tariff code flagging cannot account for country or commodity-specific restrictions
- With AQ2 HTS flag, APHIS data must be filed, even if no LPCO is required for APHIS.
- Example: edible lamb meat originating from New Zealand has no APHIS-required LPCO. This lamb requires "proof of origin".

## Guidance: No LPCO, but APHIS Flag AQ2

Element	NZ lamb
Entry Number	varies
Entry Line Number	varies
OI - Commercial Description	Lamb meat
PG01 - PGA Line Number	1
PG01 - Government Agency Code and Program Code	APH AVS
PG01 - Confidential Information Indicator	Y
PG01 - Intended Use Code	230
PG02 - Item Type	P
PG06 - Source Type Code and Country Code	267 or 39: NZ
PG10 - Commodity Category Type and Category	AP0300, 301
PG13/14 if LPCO exists (“conditionally mandatory”)	Not submitted
PG17 - Common Name Specific	Lamb Meat
PG19 - Entity Role Code, Name, Address information	IM/CB/UC
PG21 - Individual Qualifier, Name and contact information	Varies
PG26 - Packaging Qualifier, Quantity, UOM	Varies
PG27 - Container Number, Type, Length	Varies
PG30 - Inspection Status, arrival date, arrival location information	I, CBP Port Code
PG32 - Commodity Routing Type Code and Country Code	198 NZ

## Guidance: No LPCO, but APHIS Flag AQ1

- APHIS Veterinary Services has guidance on commodities that do not require an import permit
  - May still require LPCO, such as certificate or manufacturer's statements*
  - Guidelines for Importation:
    - <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/import-live-animals/no-import-permit-req>
  - Low Risk/Exempted Animal Products
    - [https://www.aphis.usda.gov/animal\\_health/downloads/import/list-of-low-risk-and-exempted-animal-origin-ingredients-and-products.pdf](https://www.aphis.usda.gov/animal_health/downloads/import/list-of-low-risk-and-exempted-animal-origin-ingredients-and-products.pdf)

# Guidance: No LPCO, but APHIS Flag AQ1

- If No LPCO is required:
  - Disclaim Code A (not regulated) or B (data not required as per PGA guidance)  
OR
  - File a message set

## Example:

1. for APHIS, rabbit meat only requires "proof of species". Disclaim using Disclaim Code B and be sure to include a correct cargo description showing the material is "rabbit meat"
2. Fire extinguishers (3813.00.50.00) or non-animal origin biodiesel (3826.00.....). Disclaim using Disclaim Code A, as there is no animal origin material.

Even with Disclaim, filers can also submit DIS document to support disclaim if you choose not to file PGA data. Example: ingredients list

# Disclaimer: Plain Bovine Rawhide Pet Chews

- Multiple HTS codes may apply
- Guidelines: Animal Products That Do Not Require An Import Permit  
<https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/import-live-animals/no-import-permit-req>
- APHIS Guideline for Importation #1119 *may apply*
  - For plain (not ground, not flavored, not colored) bovine rawhide, can disclaim using Disclaim Code B.
  - Proof of “it is what it is”

These materials do not require a USDA import permit, but will be reviewed at the port of entry.

✓ Guideline 1100: Human And Veterinary Pharmaceuticals and Vaccines

✓ Guideline 1101: Non-Human Primate Material (excluding cell cultures)

✓ Guideline 1102: Feline and Canine Material

✓ Guideline 1119: Pet Chews and Treats Made of Antlers or Rawhide

Effective March 31, 2016

**Introduction:**

Material derived from any animal is potentially subject to U.S. Department of Agriculture (USDA) regulations and must be cleared by Department of Homeland Security, Customs and Border Protection (DHS, CBP) Agricultural Specialists at the U.S. port of arrival before entry into the United States is authorized. A USDA import permit is required for animal material that may pose a risk of introducing foreign animal diseases into the United States.

Rawhide and antlers intended for use as pet chews/treats may be imported without a USDA VS Import Permit provided the conditions of this guideline are met.

**Entry:**

**1. Rawhide:**

Plain rawhide intended for use as pet chews/treats (may be cut, molded, or in sheets) which has not been ground, flavored, basted, colored, or otherwise processed is allowed entry without a VS Import Permit. All shipments are subject to inspection by CBP personnel at the U.S. port of arrival.

Rawhide which does not meet the above requirement must be accompanied by a USDA VS Import Permit.

\*Note: Rawhide is defined as untanned cattle skin made into leather by dehairing, drying, liming, and other processes. Products which do not meet this description, such as pork hides labelled as "rawhide" require a VS Import Permit.

- Depending on the guideline, LPCO (certificate, manufacturer's statement) may be required
  - Disclaim code B if no LPCO

# Disclaim or PGA data: Retail-ready Cosmetics

- Multiple HTS codes may apply
- Cosmetics may have several animal-origin ingredients; however, if cosmetics are packaged and ready for sale, they are unrestricted
  - No LPCO required
  - Proof showing “it is what it is”.
  - Note: does not apply to cosmetic *ingredients* being imported for further manipulation
- Can disclaim using Disclaim Code B  
OR
- Submit a message set for APHIS Core.

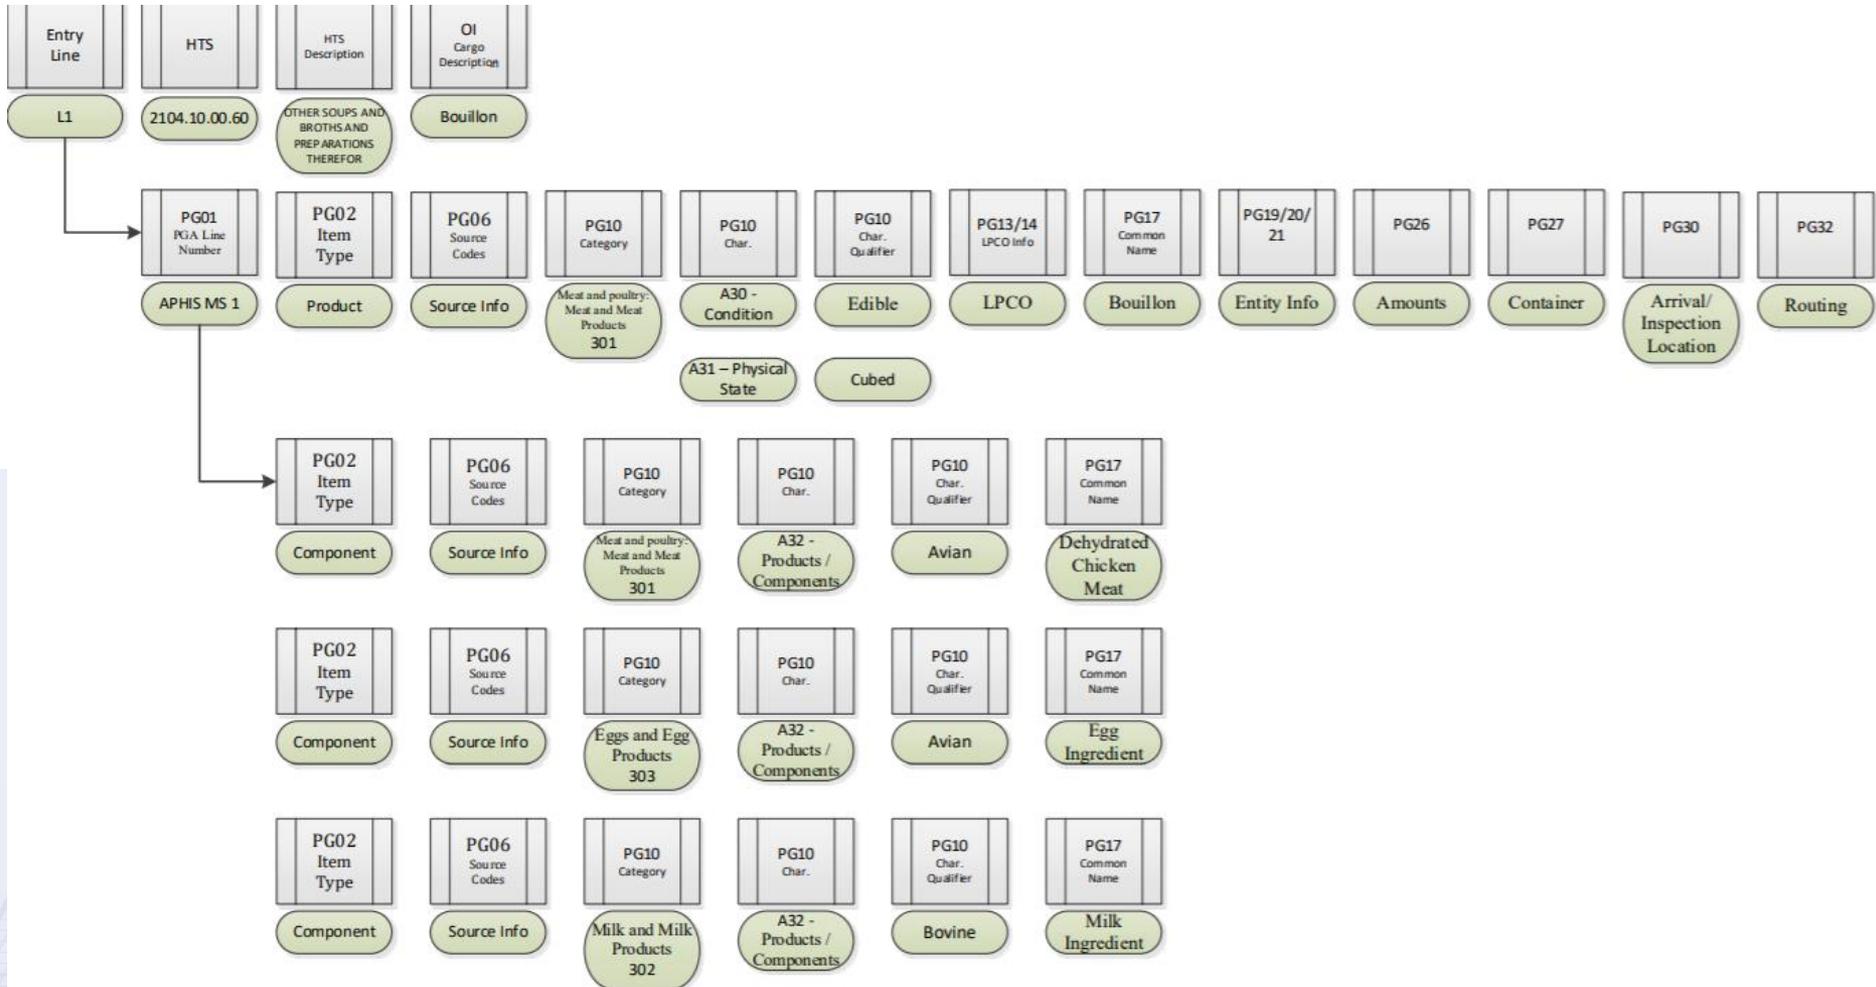

## Disclaim or PGA data: Retail-ready Cosmetics

Element	Cosmetic
Entry Number	varies
Entry Line Number	varies
OI - Commercial Description	Retail cosmetic
PG01 - PGA Line Number	1
PG01 - Government Agency Code and Program Code	APH AVS
PG01 - Confidential Information Indicator	Y
PG01 - Intended Use Code	130
PG02 - Item Type	P
PG06 - Source Type Code and Country Code	267 or 39: [country code]
PG10 - Commodity Category Type and Category	AP0300, 313
PG13/14 if LPCO exists (“conditionally mandatory”)	Not submitted
PG17 - Common Name Specific	Cosmetic
PG19 - Entity Role Code, Name, Address information	IM/CB/UC
PG21 - Individual Qualifier, Name and contact information	Varies
PG26 - Packaging Qualifier, Quantity, UOM	Varies
PG27 - Container Number, Type, Length	Varies
PG30 - Inspection Status, arrival date, arrival location information	I, CBP Port Code
PG32 - Commodity Routing Type Code and Country Code	198 [country code]

## Guidance: Product-level versus Component-level Data

- Product=commodity itself (whole item)
- Components=ingredients of the product/item
- Reporting of components is not required and not enforced; however, best practice to report components
  - Animal Product permits are issued for 1 year, but may not always be shipment-specific
  - Shipment-specific component data will be on the LPCO (certificate, statements) and/or ingredients list.
    - *Report to best of your ability*

# Guidance: Product-level versus Component-level Data

## Guidance: Product-level versus Component-level Data

- If choosing not to report ingredients as components:
  - Report product level data (PG02) AND repeat PG10 multiple times

Or

- [Less preferred method]: If too many ingredients, report product level data (PG02) and complete PG10 once, indicating “multiple animal origin ingredients” in PG17.
