

# FIFRA Imports

January 10, 2023

Christine Tokarz  
EPA, Region 8, FIFRA Inspector  
[Tokarz.Christine@epa.gov](mailto:Tokarz.Christine@epa.gov)  
518.416.8965

The **Federal Insecticide, Fungicide, and Rodenticide Act** (FIFRA) governs the registration, distribution, sale, and use of pesticides in the United States.

A pesticide is any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest, or intended for use as a plant regulator, defoliant, or desiccant, or any nitrogen stabilizer.

This includes antimicrobials, disinfectants.

Established: 1947 by the US Department of Agriculture

# Pesticides vs Devices – FIFRA Authority

EPA under FIFRA has regulatory authority over both pesticides and devices.

FIFRA defines a pesticide as “any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest...”

FIFRA defines a device as “any instrument or contrivance that is intended for trapping, destroying, repelling, or mitigating any pest or any other form of plant or animal life”

# Pesticides vs Devices – FIFRA Authority

**Any substance or device that is intended to trap, destroy, repel or mitigate a pest.**

FIFRA defines a pesticide as “any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any pest...”

**Pesticide Substance**

FIFRA defines a device as “any instrument or contrivance that is intended for trapping, destroying, repelling, or mitigating any pest or any other form of plant or animal life”

**Pesticide Device**

# Pesticides vs Devices – FIFRA Authority

First step is to ask, “What is the intended use of this product?”

If the intended use is to “kill, repel, trap...a pest – then **YES** they are EPA/FIFRA regulated.

# Body Products vs Pesticides vs Devices

## Hand Sanitizer

Only for hands and body parts

No EPA Reg. No.  
No EPA Est. No.

**FDA registration required**

## Surface Sanitizers & Disinfectants

Only for use on surfaces

EPA Reg. No.  
EPA Est. No.

**EPA registration required**

## Pesticide Devices

Should never be used as a first line disinfectant

No EPA Reg. No.  
EPA Est. No.

**EPA does not review efficacy purchase at your own risk**

# Pesticide Substances

## Surface Sanitizers & Disinfectants

This label language is federal law.

Only for use on surfaces

EPA Reg. No.

EPA Est. No.

EPA registration required

 States

**PRECAUTIONARY STATEMENTS**  
 DANGER: IRRITANT TO EYES, SKIN AND RESPIRATORY TRACT. Causes eye damage and skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on clothing, or on hands. Wear goggles or face shield and chemical-resistant gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**ENVIRONMENTAL HAZARDS**  
 This product is toxic to fish, aquatic invertebrates, oysters and shrimp.  
**FIRST AID:** In case of emergency, call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.  
**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **IF ON SKIN:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. **IF SWALLOWED:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor immediately for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or at ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.  
**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**DISINFECTION PERFORMANCE:** This product kills the following bacteria in 10 minutes at 0.5 oz. per gal. of 400 ppm hard water and 5% soil on hard, non-porous surfaces: *Escherichia coli*, *Escherichia coli* O157:H7, *Klebsiella pneumoniae*, *Listeria monocytogenes*, *Pseudomonas aeruginosa*, *Salmonella enterica*, *Staphylococcus aureus*, *Staphylococcus aureus* (Methicillin Resistant) (MRSA).

**VIRUCIDAL PERFORMANCE:** This product kills the following viruses in 10 minutes at 0.5 oz. per gal. of 400 ppm hard water and 5% soil on hard, non-porous surfaces: Coronavirus (SARS-associated), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Immunodeficiency Virus Type 1 (HIV 1).

**CONTAINS CAUSTIC MATERIALS**

EPA can determine if the labels are in compliance using the EPA Registration Number and the EPA Establishment Number.

**ACTIVE INGREDIENTS:**

Didecyl Dimethyl Ammonium Chloride .....	10.14%
Alkyl (50% C14, 40% C12, 10% C16)	
Dimethyl Benzyl Ammonium Chloride .....	6.76%
<b>OTHER INGREDIENTS:</b> .....	<u>83.10%</u>
<b>TOTAL:</b> .....	<b>100.00%</b>

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**  
**PELIGRO**

See back panel of label for additional precautionary statements and first aid.

E.P.A. Reg. No. 10324-141-12120  
 E.P.A. Est. No. 8325-PA-01

# Pesticide Substances

EPA uses PPLS to ensure the language on the product being imported MATCHES the language on the federal registration.

This is a public database.

### PG07 – Brand/Model Information

Trade Name / Brand Name BROMOXYNIL

Model

Manufacture Month and Year

Item Identity Qualifier

Item ID Number

### PG19 – Entity Name and Address

Entity Role Code

EPN

Entity Number

079693CAN004

Address 1

In all but rare instances all pesticides entering the US (even unregistered pesticides) must be produced in an EPA Registered Establishment.

Correct Entry

### PG19 / PG20 – Entity Name and Address

Entity Role Code

IM

Entity Number

Address 1

800 NORTH LINDBERGH BLV

Address 2

City

ST. LOUIS

Country

US

Identification Code

Entity Name

BAYER CROPSCIENCE LP

Apt #

State/Province

MO

Zip Code

63167

### PG21 – Individual POC Information

Individual Qualifier

IM

Phone Number

314 694-8193

Individual Name

OFELIA GOMEZ

Email Or Fax Number

OFELIA.GOMEZ@BAYER.COM

### PG55 – Additional Entry Role Information

# New Way of Filing – Close Ups (PS3 No Disclaim)

1. Does the EPA Establishment Number in ACE match the label?

2. Does the label have the requirement R&D information?

## First, Pesticide Status

PS1	Registered Pesticide
PS2	Pesticide Device
PS3	Pesticide Other (Research and Development, Minimum Risk)
TS1	Toxic Chemical (not a pesticide)

## Second, Disclaim Code

A	Not Subject to FIFRA Regulations
B	<b>PGA Data</b>
C	Scanned/Signed by EPA NOA and Label uploaded to DIS
D	Scanned/Signed by EPA NOA with shipment

## First, Pesticide Status

- PS1 Registered Pesticide
- PS2 Pesticide Device
- PS3 Pesticide Other (Research and Development, Minimum Risk)
- TS1 Toxic Chemical (not a pesticide)

THESE MEANS HAS THE SECTION 3 LABEL IS ON THE PRODUCT

THIS IS THE OPTION THAT SHOULD BE USED FOR PESTICIDES THAT ARE NOT LABELED WITH THE SECTION 3 LABEL

NO DISCLAIMER

## Second, Disclaim Code

- A Not Subject to FIFRA Regulations
- B **PGA Data**
- C Scanned/Signed by EPA NOA and Label uploaded to DIS
- D Scanned/Signed by EPA NOA with shipment

### Tips for Trade when filing an EPA Pesticides ACE PGA Message Set

#### Determining Filing Requirements:

To determine if you need to file the Pesticides Notice of Arrival (NOA) data and the on-product label, please check with the EPA Regional Import Coordinator for the appropriate port, to assist with determining pre-arrival filing requirements. Contacts for the regions can be found at:

<https://www.epa.gov/compliance/regional-contacts-questions-concerning-notices-arrival-epa-form-3540-1>

#### Disclaims for ACE:

If an HTS code in ACE is flagged for EPA Pesticides, but you have determined that you are not filing the EPA Pesticides NOA data electronically, determine the correct disclaim code to provide.

**If you do not need to file** an EPA Pesticide NOA, use disclaim code

A = product is not regulated by this agency

**If you cannot file electronically using the ACE PGA Message Set** for the NOA, prior to arrival you will need to follow the paper process with the appropriate EPA region for the port of entry. You will need to provide the EPA-signed NOA with the entry or shipment. For this process, the disclaim codes are one of the following

C = data filed through other agency means (uploading to the document image system-DIS)

If disclaim C is provided for EPA Pesticides, an image of an EPA-signed Notice of Arrival must be provided in DIS for this Entry Number. If an EPA-signed NOA is not provided, it is a violation. If you meant to file a code A rather than a C you can use the CA transaction to submit the corrected information.

D = data filed through paper

If disclaim D is provided for EPA Pesticides, an EPA-signed Notice of Arrival must accompany the shipment.

Filings with disclaims C and D are subject to a Documents Required status to allow for verification of the signed paper NOA by the CBP port officers and/or the EPA Regional Import Coordinator.

### Tips for Filing

For questions on how to file, please refer to your Software Provider's training and guidance. In addition, please keep in mind these important items:

- Verify your Filer Code is active in ACE for EPA pesticides
- Make sure you are using the correct Government Program Agency Code

Last Updated: May 25, 2017

- 
- PS1 – registered pesticides
  - PS2 – devices
  - PS3 – other pesticides
  - Tag any related DIS images with both the Entry Number and the correct EPA tag, so EPA can view the documents in ACE
    - EPA03 (NOA)
    - EPA04 (Pesticide Label)
  - If possible, avoid entries with FDA lines when filing less than 5 days from arrival, as doing so prevents re-submissions to correct errors.
  - Registration number format should be double-checked. Enter the number as it is provided, leaving in the dashes.
  - Producer Establishment Number Format (NNNNNNAANNN) should be double-checked. Remove dashes and add leading zeroes to both the first and last numbers if they do not follow the 6N 3A 3N rule.

## Attachments:

- Domestic producer establishment numbers will have a state code, while foreign producer establishment numbers will have a country code.
- For foreign establishments, the amount reported should only be that amount which is produced for import into the United States, not to other countries.
- Verify correct Country of Origin.
- Electronic Image Indicator should be used when the label has been upload into DIS prior to the filing.
- Check for inclusion of all Eight Entity Roles and their respective information (EPN, CB, DEQ, CAR, IM, NP, CI, LG)
- Check that the packaging is provided for at least 2 levels, and in addition, the total net weight is provided. There are multiple variations for packaging unit of measures, several of which can be found in the EPA CATAIR Supplemental and Samples documents. One simple example for the “packaging qualifier” (PG26) is:
  - Packaging Qualifier [5]: 1 = Largest unit of packaging
    - Quantity [6-17]: 000000110000 = **1,100 units in shipment**
    - Unit of Measure (packing level) [18-22]: BG = Bag
    - **There are 1,100 units (bags) in the shipment.**
  - Packaging Qualifier [5]: 2 = Second largest unit of packaging
    - Quantity [6-17]: 000000001520 = **15.2 measurement of smallest units in shipment.**
    - Unit of Measure (packing level) [18-22]: KG = Unit of Measure of individual units is kilograms
    - **The bags in this shipment are 15.2 kg each.**
  - The net weight line (PG29) is for the **total net amount of all the units** in the shipment being imported (**16731.45 kg**)

Please refer to the CBP CATAIR and EPA Supplemental for more details and samples:
